EDUCATION

M.Tech Computer Science & Engineering

IIT Hyderabad

2025 CGPA: 8.90

B.Tech Computer Science & Engineering (Networks & Security)

VIT-AP University, Amaravati

2021 CGPA: 8.90

RESEARCH & PUBLICATIONS

Blockchain Architecture Optimization - HyperLedger Fabric

arXiv:2509.07425

Indosys 2025 Conference

- Optimized core architecture of HyperLedger Fabric blockchain to reduce transaction failure rate, improving overall efficiency
- Presented research findings at Indosys 2025 Conference; Published on arXiv
- Analyzed blockchain consensus mechanisms, transaction processing, and network architecture for performance improvements

EXPERIENCE

Data Engineer

Netradyme

July 2025 - Present

- Designed and implemented distributed systems using Kubernetes (EKS) for container orchestration and scalable infrastructure
- Built automated CI/CD pipelines and infrastructure monitoring systems for high-availability applications
- Optimized data processing workflows and storage solutions using AWS cloud services

Tech Analyst (SDE-1)

BlackRock

July 2021 - June 2023

- Developed distributed systems and microservices architecture using Spring Boot and Angular
- Implemented REST and GraphQL APIs for distributed systems, standardizing workflows across 50+ teams
- Built scalable backend services with high availability and fault tolerance

PROJECTS

WineSecretHK - RAG-based AI System with Web Integration

rag.winesecrethk.com/docs

- Built distributed AI system with FastAPI backend, AWS RDS, and ChromaDB for vector database operations
- Implemented webhook integrations for payment processing and order management systems
- Designed scalable architecture for multi-modal input processing (text, audio, images)

TECHNICAL SKILLS

- **Blockchain:** HyperLedger Fabric, Consensus Mechanisms, Transaction Processing, Smart Contracts, Distributed Ledger Technology
- **Distributed Systems:** Microservices Architecture, API Design (REST, GraphQL), Container Orchestration (Kubernetes, Docker)
- **Cloud & Infrastructure:** AWS (EC2, EKS, S3, FSx, CloudWatch), Azure DevOps, CI/CD Pipelines
- **Languages:** Python, Java, Golang, TypeScript, JavaScript, C++
- **Frameworks:** Spring Boot, Angular, Express.js, FastAPI
- **Databases:** MongoDB, MySQL, ChromaDB, AWS RDS
- **Tools:** Git, Docker, Kubernetes, Jenkins, Elasticsearch

ACHIEVEMENTS

- Published research on HyperLedger Fabric optimization at Indosys 2025 Conference
- 1st position in IITH ML Hackathon; 15th position (out of 100+ teams) in IITH Deep Learning Hackathon
- 1st position in Object Oriented Programming course (100+ students); 450+ problems solved on LeetCode
- 4/5 star rating in BlackRock annual employee ratings (2021, 2022)
